

MPWMH-5S

MULTIPURPOSE WALL-MOUNT HOLDER AND ORGANIZER

Thank you for purchasing the Absolute Living product. Before we get started, please make sure the package contains the following items:

Multipurpose Wall-Mount Holder and Organizer

6 pieces Wall Anchors

6 pieces Screws

Installation Template

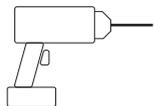

Quick Installation Guide

Installation tools needed.

Level

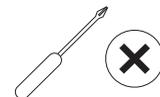

Power Drill Tool

7/32 Drill Bit

Hammer

Phillips Screwdriver

Scotch or Painter's Blue tape

Safety Goggles

- 1 Locate a wall panel where you want to install the holder. Use the included installation template to mark and drill the holes for the anchors/screws. Use a leveling tool as seen on Figure 1 to make sure the Holder is leveled after the installation.

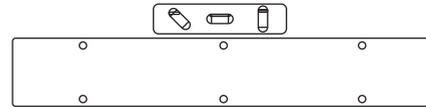

Figure 1

- 2 Use a Scotch or Painter's Blue tape to keep the installation template in place where to mount the holder. Place tape on all sides. See Figures 2.

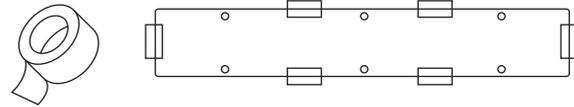

Figure 2

Important Note: Before drilling holes on your walls, make sure there are no water pipes, gas pipes, and/or electrical wirings behind your wall to avoid any punctures that may lead to water/gas leaks or electrical shortages.

- 3 Wear safety goggles to protect your eyes from any debris.

Using your Power Drill Tool and 7/32 Drill bit installed, bore six holes on the template as seen on Figure 4. Remove the installation template after the holes are drilled. See Figures 4 and 5.

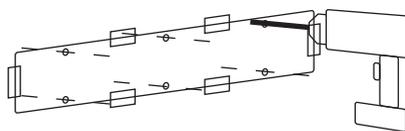

Figure 3: Drill Holes

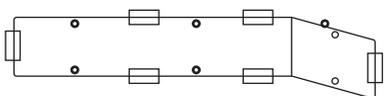

Figure 4: Remove installation template

Figure 5 There will be total six holes where you will need to insert the wall anchors.

- 4 Insert wall anchor in each hole and tap gently using your hammer as seen on Figures 6 and 7.

Figure 6 Inserting wall anchors in each hole.

Figure 7

- 5 After placing the anchors, align the screw holes of the holder against the holes on the wall and hold it in place. Insert one of the screws into the hole and turn the screw using your Phillips Screwdriver until it is fully tight. See Figures 8 and 9. Repeat the same process until all six screws are in placed.

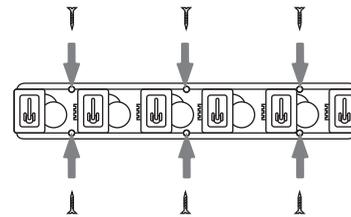

Figure 8. Inserting screw into the hole and turn it using Phillips Screwdriver.

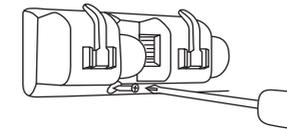

Figure 9.

- 6 Step 6. Check to make sure all six screws are tight and product is properly secured on the wall. Congratulations! You may now place your brooms, mops, fishing poles, hand gardening tools, hand towels, etc.

How to hang your brooms, mops, etc?

Hold the shaft of the broom or mop, push and slide down to lock it in place. See Figure 10.

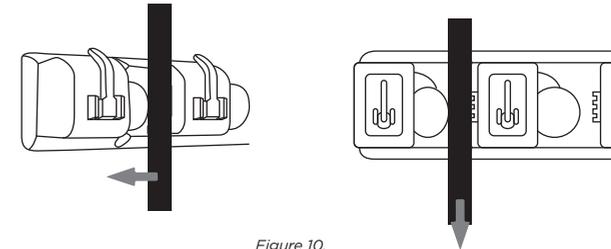

Figure 10.

How to remove the broom or mop?

Hold the shaft of the broom or mop, push up and pull away from the holder. This will release your broom or mop from the holder. See Figure 11.
